IN CONVERSATION WITH PRESIDENT LOBSANG SANGAY

Dr. Sangay has been the democratically elected political leader of the Central Tibetan Administration (CTA), ever since His Holiness the 14th Dalai Lama devolved his political power in 2011. Join him on this special evening as he addresses some of the key challenges for Tibet.

The fate of Tibet's unique national, cultural and religious identity is being seriously threatened and manipulated under China's communist regime. The International community should stand behind Tibet in its quest for a peaceful solution based on the Middle Way Approach, which states that Tibet will seek genuine autonomy and not independence from China.

Hear more on the topic and participate in the Q & A with President of CTA and Harvard Law School graduate Dr. Lobsang Sangay.
